WEIGHT-LOSS & WELLNESS

WEIGHT LOSS

Our medically supervised weight loss program combines effective tools—including GLP-1 medications—to support safe, sustainable results. Options include Wegovy® and Zepbound® (with insurance approval), Mounjaro® and Ozempic® for eligible diabetic patients, generic GLP-1 alternatives, and appetite suppressants such as Adipex, Bontril, and Tenuate. With in-house labs, insurance-friendly visits, and acceptance of most major plans, we make weight loss more accessible and affordable. Self-pay options are also available, starting at \$100 plus \$75 for labs.

WEEKLY LIPOVITE INJECTIONS

Helps support metabolism and along with dietary measures can help you reach your weight loss goals . \$30 each | 4 for \$100

MONTHLY B12 INJECTIONS | \$50

B12 is essential for healthy blood cell formation, nerve function and energy production. Supplementation during the weight loss journey is beneficial in some patients.

HORMONE REPLACEMENT THERAPY (COMING SOON)

For women, we provide comprehensive menopause management and Hormone Replacement Therapy (HRT), including hormone pellets (starting at \$350). HRT can restore balance, improve energy, stabilize mood, support metabolism, and relieve common symptoms such as hot flashes, irritability, sleep disturbances, and low libido. With personalized dosing and ongoing monitoring, we help women feel more like themselves again—comfortably, safely, and with long-lasting results.

MEN'S HEALTH

Our men's health services include low testosterone treatment, testosterone therapy, and ED medications (Cialis® and Viagra®). In-house testosterone injections available.

HOME SLEEP STUDY

We address sleep health with diagnosis and treatment for sleep apnea and insomnia, along with personalized sleep hygiene guidance.

**WE ACCEPT MOST MAJOR INSURANCE PLANS.
SELF-PAY & FINANCING OPTIONS AVAILABLE.**
